

REMARKS:

No additional amendments have been entered in the claims as the objections under 35 USC 112 and 35 USC 103 will form the subject of the APPEAL filed simultaneously herewith.

In the specification, the only amendments relate to the CLEAN COPY of the substitute specification in which page numbers and paragraph numbers have been added as required. It is requested that this now be entered.

In order to overcome the previous inadvertent omission of the corrected drawings, the fresh drawings are now attached and it is requested that these be entered. The amendments made in the last response are now entered as follows:

Figure 1 has been amended to replace the reference number 10 applied to the tape by new reference number 100 so as to overcome the duplication.

Figures 3, 4 and 6 have been amended to add reference numbers 90 and 91 now referred to in the specification.

Figure 6 has been amended to add reference numbers 9A and 10A referred to in the specification.

It is understood that some amendments in the specification and some amendments in the drawings are the subject of objection from the Examiner. However it is requested that the amendments be entered and the objections relating to those amendments will be addressed as subjects of the APPEAL.

Respectfully submitted

DAVID E. MOKEY ET AL
